Dear Customer,

As trusted managers of your escrow account, we have safeguards in place to ensure there's enough money in your account to cover your tax and insurance payments.

Because you have an escrow account, it means that part of your monthly mortgage payment goes into an account to pay for your property taxes and/or insurance premiums. During the year, payments are made from your escrow account when tax and/or insurance bills become due. The Escrow Account Disclosure Statement shows how much money has been credited to and paid from the escrow account over the last 12 months. Additionally, both the projected and required balances are compared to ensure that we are collecting the appropriate amount.

Based on our recent analysis, you have a shortage of \$235.15.

Projected Minimum Balance	\$2,951.17
Required Minimum Balance	\$802.24
Amount of Shortage	\$235.15

The projection assumes that your escrow account was current at the start of the projected period. However your escrow account is not current. Your escrow balance should be \$1,604.49 but your current escrow balance, as of the effective date is \$1,369.34. If your escrow account had been current, there would have been a shortage of \$235.15. **This projection assumes that your escrow account was current at the start of the projected period although this is not the case.**

The shortage will be adjusted by (1/12) of the shortage amount and added to your monthly payment.

Last year we anticipated that payments from your escrow account would be made during this period equaling \$4,637.13. Under federal law, your actual lowest monthly balance should not have exceeded \$772.85 or 1/6 of the estimated payments from your escrow account unless your mortgage documents or state law specifies a lower amount. Your mortgage contract and state law are silent on this issue. Your actual lowest escrow balance was \$-6,155.24.
